Immunity Gateway Controller

Unified gateway security, access control and performance management purpose-built for modern enterprises and data centers.

Preliminary specifications — final datasheet on request.

Highlights

- **Gateway security** — Policy enforcement and protection at the network edge.
- **Captive portal & auth** — Built-in captive portal with PM-WANI-compliant workflows.
- **Bandwidth management** — Shape and prioritize traffic per user, group or application.
- **Centralized control** — Unified visibility and policy across every site.
- **Performance management** — Keep mission-critical applications fast and reliable.
- **Net Cloud integration** — Manage gateways alongside the rest of the Immunity stack.

Specifications

Function	Security & performance gateway
Security	Policy enforcement, access control
Captive portal	Built-in, PM-WANI compliant
Auth	Local, RADIUS, voucher, OTP
Traffic	Bandwidth shaping, QoS, traffic management
Visibility	Per-user/app analytics
High availability	Failover support
Management	Net Cloud, web UI
Deployment	Enterprise & data center
Certifications	CE, FCC, RoHS

Designed, engineered and manufactured in India. Certified MTCTE, CE, FCC, RoHS. Managed by Immunity Net Cloud. Contact us for ordering information, warranty and bulk pricing.
